

ROBERTSON AND ALBERTA CO-OPERATE

**AND ALBERTA
CO-OPERATE**

Methodist and Presbyterian Col-
leges in Edmonton to Unite
on Some Work.

**DETAILS TO BE LEFT
IN HANDS OF FACULTY**

Prepare for Erection of Permanent Building on Grounds of University.

Co-operation between Robertson, Presbyterian and Alberta Methodist Theological Colleges and the temporary and permanent enlargement of the Board of Christian Education. At the meeting of the board of management of Robertson College, which was held yesterday afternoon at the home of a family in Calgary.

The members present were: J. A. McDougall, chairman; D. H. McKinnon, secretary; J. A. McNeill, Rev. Robert Lee, Rev. B. McDougall, McKenzie, Dr. McQueen, Dr. Arthur of Vegreville, Rev. J. Roxburgh of Calgary, and Rev. A. Mahany, of Calgary.

Opening exercises were conducted by Dr. Arthur, of Vegreville, Principal of the Divinity School, who presided from his kinsmen, was able to present a report of the past year's work.

Encouraging Library.

Prof. McDougall read a very encouraging library report. The thanks of the board were extended to the

Dr. McQueen reported on behalf of First church, that nothing had been done in the way of permanent endowment, and J. A. McDougall supplemented his remarks by an explanation of Dr. A. S. Grant's million dollar enterprise, which lies in abeyance in the meantime on account of the financial stringency.

A. F. Ewing reported as treasurer, that all responsibilities had been met as they arose, and that the college had the following assets:

Property worth approximately \$11,000, against which there is a mortgage of \$3,000.

Two lots in Parkdale, donated by J. M. Douglas.

Two lots in the Martin estate, donated by Mrs. Martin.

The cordial thanks of the board were extended to Mr. Ewing for the time and thoughtful care devoted gratuitously to the work of treasurer.

Endorsed Senate's Action.

The board endorsed the two recommendations of the senate of the college, namely:

First—That the remarkable expansion of the college deserves a larger grant from the budget fund of the Presbyterian church than is down in the estimates for 1913, and the board will respectfully urge the assembly to increase the amount to \$15,000.

Second—The board endorsed the proposal to have Dr. A. J. W. Myers as the representative of the assembly's Sunday school committee lecture for three months on Religious Education at Robertson College next term.

More Temporary Buildings.
In the matter of accommodation, it was agreed that a committee consisting of R. B. Douglas, Ald. H. A. Calder, Arthur Davies and Prof. J. M. Miller, should have full power to proceed with the purchase of a lot, the erection of a house, and to make all necessary financial arrangements for increasing the accommodation for next term, when it is expected that ten attending mill hands would be required.

Co-operate With Methodists.

It was agreed that the recommendation of Principal Dyde in the matter of co-operation with Alberta Methodist Theological College should be carried out, and that the details of the arrangement be left in the hands of the faculty, to report to the local members of the board.

It is understood that in the event of the co-operation as suggested that combined classes of the Methodist and Wesleyan theological students will be held in the Alberta College building.

This does not mean organization of the colleges, but simply cooperation for teaching purposes, for example, one professor in Robertson college will teach all the students of the Methodist and Lutheran presbytery College in his particular subject, while a Methodist professor will teach the combined classes in his particular subject.

May Increase Staff.

On the question of an increase of staff of Robertson College, the board said that Principal Hyde and Prof. Roberts, the two college professors, yet, should have assistance.

Dr. King and Dr. Wood were en-

TUESDAY, APRIL 8, 1913.

A PARTY WITHOUT CONVICTIONS

A lack of convictions is the condemnation that stands written across the face of the whole campaign of the Opposition against the Sifton Government.

Lack of convictions also supplies a key-note to the failure of H. B. Bennett to impart to that campaign anything of vitality or impetus.

The speeches of Mr. Bennett are in confirmation of the evidence of the Opposition campaign, that either the Opposition have no consistent and adequate policy to offer as alternative to the policy of the Government or.

Neither the Opposition nor Mr. Bennett dare call that policy to the mast-head and go into action under it.

When not engaged in efforts to drive himself into troubles into which an unready tongue has led him, the speeches of Mr. Bennett—like the campaign of the Opposition—consist altogether of criticism of the Government, with a pretence even of enunciating a policy in substitution of that embodied in the record and policy criticised.

This Province cannot be governed by negatives, and it is the right of the electors to know from those who oppose the present Government not only what faults they have to find with the way public affairs have been managed, but also what they have to offer in the way of alternative or improvement.

An Opposition which attempts to gain power on the strength of destructive criticism and without assuming frank responsibility for any alternative policy is either exhibiting its incapacity to formulate a public policy or is attempting to get into office on false pretences.

If there are not a baker's dozen Conservatives among the fifty-six members in the next Legislature of Alberta the fault will be in part at the door of the Government, who have taken the electors for duds who can be stamped into voting for men who either do not know or dare not say what their party stands for.

Mr. Bennett thinks the fact that Alberta farmers are paid only 18 cents per bushel for oats is a reason why the Alberta farmers should vote against Opposition candidates.

The Alberta farmer is obliged to take 18 cents per bushel from Mr. Bennett for oats which are worth 42 cents per bushel in Spokane because the Ottawa Government, which Mr. Bennett supports, refuses to allow the Alberta farmer to ship his oats duty-free into the Spokane market.

Mr. Bennett is campaigning in Alberta for the purpose of setting up at Edmonton a Government which would be in political alliance with the Government at Ottawa, with prestige, influence and organization would make common cause with the Ottawa Government in fighting the movement for free entry for Alberta farm products into the United States markets, and for the perpetuation of the monopoly which enables Mr. Bennett to buy at 18 cents per bushel oats which are worth 42 cents per bushel in Spokane.

That may not, to Mr. Bennett, be a good reason why the Alberta farmers should vote against Opposition candidates that result. It is certainly a mighty poor reason why they should vote for them.

Mr. Bennett adds nothing to his own reputation for good sense, nor

to the integrity of the Opposition campaign, in saying that the farm implement makers will refuse to do business with the farmers of the Province on anything but a cash basis if the Farmers' Initiative Act is enacted on the statute books.

That the implement makers will take any such foolish step in protest against a law which has only the (dishonest agent for farm machinery is not seriously considering anybody but platform opponents of the Sifton Government whose ammunition pouches have run dry.

The Government which passed the Farmers' Initiative Act stands behind it, and to take any such step would mean to save the farmers from hardship imposed by machinery dealers seeking to coerce them into voting the Government out of power.

Provision against such imposition has already been made, in the authority given to the directors of the co-operative elevator system to buy farm machinery at wholesale and retail to farmers. If the dealers should take the foolish step of refusing to sell their wares to the farmers, they would be the farmers have already a means of effective relief.

If the delation of Mr. Bennett is authorized by the Provincial Government, should they retain power, to wipe the Farm Implement Act off the statute books and to leave the farmers once more at the mercy of the unscrupulous machinery agent.

Is that the deliberate intent of the Opposition? Or are they only trying to deceive the implement dealers into bringing pressure to bear upon the farmer, as they are trying to deceive the farmer into thinking the new law is his enemy and not his friend?

Mr. Bennett says the Sifton Government, called into existence to make a settlement of the A. and G. W. bargain, has failed in settling the question but has spent a million dollars trying to settle it.

That the Government has not succeeded in finally settling the question is true.

That the Government has spent a million dollars in an unsuccessful attempt to settle the question is also true. The question has been given a semblance of truth only by assuming that the banks will not have to pay the Province interest for the money they have advanced to the poor three years—an assumption contrary to every principle of fairness and business, and which could be made fact by a legal decision more flagrantly regardless of public rights than that which said the people of Alberta must pay interest on money which they could not consume.

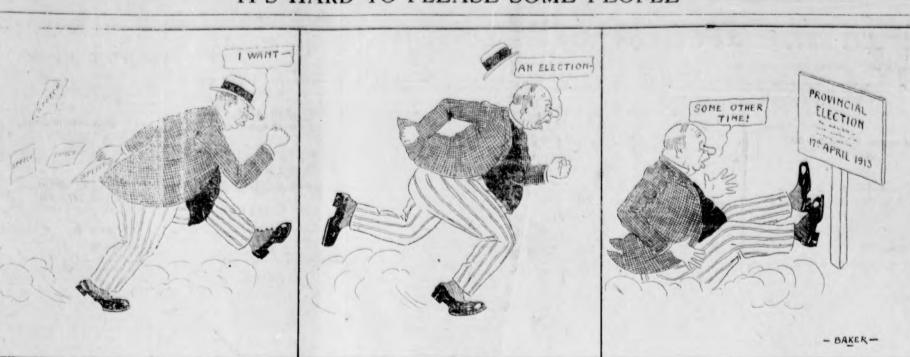

But if the Sifton Government had spent a million dollars vainly trying to secure possession of money for which the Province is not responsible, or to spend another million to acquire possession and the Province would then be a couple of millions better off, than if the A. and G. W. bargain had been settled for the money spent in accord with it.

If it is not the purpose of the Opposition to revive the A. and G. W. bargain with all the disadvantageous terms which Mr. Bennett once condemned, then what is their purpose? Absolutely the best Mr. Bennett had to say for them was that they would have a Government which has been counselling the Government for not announcing its remedy is not good enough.

The course of the Government is sufficiently indicated by the record of the Government. It has fought to protect the public against the consequences of an unbalanced bargain from the first, and it is bound by every principle of good faith to continue to do so until the end. In trying to protect the public the Government has received the lively condemnation of the Opposition at every turn. If the Opposition do not stand for the surrender of the public interests without further protest, then begin to make their past record pass as understanding.

Winning, April 7, Mr. Edmund Robb, returned this morning from a two months' holiday in the south. The speaker is in the best of health and devoted the whole forenoon to business at his office in the parliament building.

IT'S HARD TO PLEASE SOME PEOPLE

Provincial Opposition: "This is on sudden."

Remark on the Side

A schoolman who found a 110 lb. hanging on a wire fence, promptly removed it. Paper hanging on fences looks so silly.

The farmer in the southern part of the province are already availing themselves of the electric net posted in the legislative session just closed.

What asks a preacher, "will take the place of a rope of sticks, and he suggests that a moral way of right conduct would bring out those virtues. He may be right—at any rate, it is not a bad idea to try it.

As a means of keeping wrinkles out of a lady's face, the practice of retiring to some quiet place for five minutes three times every day and thinking of absolutely nothing. This is not as easy as it looks, but it might be accomplished by trying to think on what the Conservative party is going to do for Alberta.

The pay-as-you-enter system on Saskatoon seems to be the cause of a line of people, and a newspaper man complains that when he is asked to pay for his ticket, he is told that he would have to call at the curbs next day for his change. No doubt he is given as to how he happened to have a 45 cent in his possession.

The efficacy of prayer is sometimes a bone of contention amongst theists, but there does not seem to be much doubt on the point in the case of a correspondent of the Vancouver paper, who writes: "The chairman called upon Mr. D. McQuay to read the proceedings with prayer, and that the programme proper was entered upon."

It is sometimes hoped that thoughtful neighbors take a great interest in the property of absent householders. One whose household is in the Vancouver district found on the return last week that a letter had been received, the letter remained, the rest of the building having been appropriated by someone in need of money. Little attentions like these are bound to make a newsworthy item to be very much at home.

Intending to celebrate his own marriage in right royal style, a Fort McMurray man made preparations for a great feast in which coarseness would be a prominent feature.

He ordered wine and whiskey and beer in such large quantities as to attract the attention of the police, and, as a result, on what should have been his marriage morning, he found of answering the question, "Will you take this woman to be your wife?" he was up against the enquiry, "Are you guilty or not guilty?"

Correspondence

THE PROTESTS AGAINST THE BELGIAN ARMS

Editor Bulletin:—In connection with the killing of Belgian heavy drags at the Edmonton spring show, I would publicly express my opinion of what I consider a great injustice.

When it came to competition for championship in this breed, there were three Belgian stallions, two of which were closely bred and one ordinary trade horse, what we call in Belgium, "mission."

The last is the kind of horse one must very often meet over there, because they have no quality and no prospect of a show career at all. The first was with the three-year-old stallion (Bosquet, No. 562, and second of genuine and fastbred quality, the eye was in this. A superficial examination of the horse would have shown the capital fault of several splints along the cannon bones of his forelegs, sign of weakness of the limbs that were corroborated by lumpy hocks with an evident tension along the tendons. But along in the class, this horse was allowed to be used up for championship action by the judges. Belgian stallions of the most sound and perfected type. There again the horse made his own great inferiority by his very poor

tion as against the impressive moving of the two other stallions. Yet, after minutes' examination, the judge, Mr. Graham, of Toronto, gave the championship to the "mission" stallion, property of W. W. Hunter, vice, against the four-year-old Belgian, belonging to Messrs. D. Scheraga, farmers, of Villeneuve, Alta.

Now, I beg to affirm and look for my contention by a regular challenge to Mr. Hunter or to the judge, if he does, that there is a world of difference towards the better, between the described stallion and the "mission" stallion, in favor of the former and the prize to the latter.

The stallion champion, No. 484 (imp.), directly related to the famous Belgian equine family of Chenebroux under every possible point of consideration, owing to the harmony and perfection of his beautiful body and his extended action, has been discussed sincerely. Unfortunately, it is true that his life is being ruined and his body pretty spoiled as the result of him received during the last year, a severe cold, which has left him with the asthma, and he is not able to do his work. Through this supposed break of a halter, now stallion, poor loss in the bare and rapid of his condition, and the extraordinary good luck department was not diminished at all, except the fact that he is now a "mission" stallion, and he is a few weeks to disappear.

But, if you think this horse was not given championship, then that horse came unimpaired in the two-year-old, Prince of Wales, because he is a proper son of full-grown of the famous family of Chenebroux in 1890, 1901 and 1908, because Prince shows plainly all the best and perfection in the world from his famous sire.

It would be tedious to elaborate further details as to the overwhelming superiority of this two best described stallions.

I hate to criticize judges. By no means could I be induced to be a judge myself, but I think that a reasonable man should be allowed to judge for the eventual expression of their own particular point of view. In their short examination for comparison, and such an occasion, the judge is altogether out of the question here. Mr. Graham, as a Clyde admirer, has the reputation of being a very competent judge and that is the fact of what I intend to be an extraordinary misjudgment is borne by the fact that he is the first time I met with similar injustice. It happened in the very same manner at last year's summer fair at Saskatoon. I am glad to say the injustice was partly repaired at the following fair at Edmonton, and all the leading western agricultural papers stated the facts and endorsed the referee.

Now the same thing has happened again, and I am getting tired of it. Therefore, and in order to substantiate my allegations in this particular case, I will be the following challenge to Mr. Hunter and to the judge if he likes. The other party or parties will select whatever sum he chooses he desires in the hands of a trustee. I will then deposit double the said amount. The three stallions, and two of them, provided Mr. Hunter's stallion is not to be championed by a team of college judges at the other party's choice, and the money deposited will go to the winner, to be used as he sees fit. I will accept the challenge at the Calgary fair (April 1-12).

As a native of Belgium myself, I am certain that the Belgian breed of horses to bring over to this country the best obtainable of the Belgian breed of horses, and that I must be remembered that I am doing this at the highest possible price, and with the best of immediate financial benefit, especially in the case of champion horses of the world. The market for Belgian horses is enormous in this country, and in Canada. It has yet to be built up, in fact, I consider that I am really doing a kind of missionary work, and I am to the direct advantage and progress of this western country and its horsemen, to make a direct appeal to all concerned that drawbacks and discouragements of this kind should be avoided as much as possible in future. Also, and for the sake of fair play and for the progress of improvement

stock in the line of horses, I beg to put, squarely, the following question: Are conditions remain such, in western fair competitions, that a man can go and get, directly or indirectly, from the old country selected horses of the kind described, taken them up to a degree dangerous to the horses themselves, groom and attire them, and then set the highest horses at sale before anyone and choose horses, merely because of ingrained or friendship with judges, if not worse?

I know there to be, at the head of every fair, a select body of men whose end-views are altogether far removed from fair play. I think they will soon be able to improve matters. Therefore, I am prepared to defend my rights as best I can.

Yours respectfully,

A. HAZEN,

Edmonton, April 5.

Were Shot by Policemen.

Greenview, S.C., April 6.—Breaking into the basement of a dry goods store here early today, Leonard Smith, 17 years of age, and Rowley Martin, 21 years old, were shot to death by two policemen concealed in the place in anticipation of robbery. One of the officers was severely wounded. According to the story of the policemen at the inquest, the boys advanced into the store, flourishing pistols, wearing masks and flashing pocket watches and opened fire on the men ordered to throw up their hands. Examination of the revolver showed that Smith had fired once, Martin twice, and the policemen twice time. Young Smith belonged to a wealthy and prominent family.

FEDERAL GOVERNMENT MAKES LARGE DEMANDS

In Exchange for Penitentiary Site. House Authorities Demand New Site, New Buildings and Transportation—New Site Must Contain 200 Acres—Present Site Is 129 Acres.

The terms on which the Dominion government will move the Alberta penitentiary from its present site in the heart of the east end of the city to one removed some distance outside the city limits, are under consideration by the members of the public works committee. To put it briefly, in exchange for the present site, the Dominion government asks 200 acres of land conveniently situated to a railway, transportation to the new site, and the cost of new buildings.

This appears to be a pretty large order. The present site comprises 129 acres, which is estimated to be worth about \$4,000 an acre. On this basis the city would acquire land worth about \$1,200,000.

The public works committee has been cautions for possible sites, which will be submitted to the department of justice for approval. It is probable that a report on this matter will be made to the city council at its regular meeting tomorrow evening.

Another matter that is receiving serious attention is the securing of the grounds now used as a rifle range. This piece of property, which is on the south bank of the river, just opposite the outlet of the big creek, is needed by the city as a location for the sewage disposal plant.

THE INDEPENDENT INFINCHER DROPS OUT.

Pincher Creek, Alta., April 7.—Thos. G. Wilson, who entered the political campaign here last week as an independent candidate, this morning informed his friends that he had decided to drop out of the fight.

There is one matter in which the Dominion government refuses to take any action. It will not aid in any way in building retaining walls on the sliding banks of the river. The reason given, Alderman Smith, during his recent visit to Ottawa, was that if the government assisted Edmonton in this way, there would be scores of other places throughout the Dominion which would make similar applications. If the city wishes to protect the river banks, it will have to do so at its own expense.

Former Premier Dying.

Paris, April 7.—M. Jean Ernest Mandat, the former Premier and previously ambassador to Turkey, who resigned in 1909 after he had notified the Porte that it could get no more loans in France, is believed to be dying. His notice to the Porte created a sensation at the time. He is almost 80 years of age. M. Mandat was succeeded by M. Burdard as ambassador at Constantinople.

GERMANY NOW FEARS RUSSIA AND FRANCE

Imperial Chancellor Gives Reasons
for Kaiser's \$250,000,000
War Tax

GREAT BRITAIN DOES
NOT FIGURE AS ENEMY

No War on Horizon, But Germany
Must Be Well Pre-
pared

Berlin, April 7.—"If outside forces should threaten us, Germany must stand ready with her last man," declared Dr. Von Bethmann-Hollweg, the imperial chancellor, in a statement today, while submitting the government's bill for increasing the army for providing new forms of taxation.

"The good intention of the French and Russian governments are beyond contention," declared the chancellor, "but Germany must reckon with the great force of modern public opinion, which in the form of French warlike agitation and Russian Pan-Slavism, threatens the peace of the world against the wishes of the great masses of both peoples."

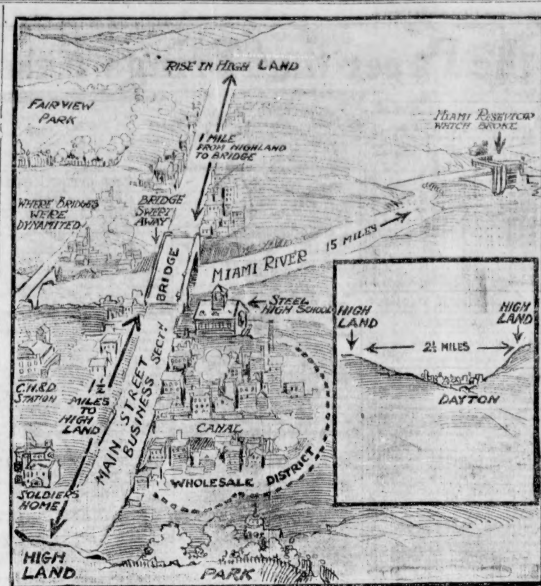

Ready to Consider Proposals.
It was interestingly that in the chancellor's speech Great Britain was referred to only as a pacific factor. Dr. Von Bethmann-Hollweg, although indicating by his manner that he had little belief in the practicability of the suggestion made by the British admiralty for a year's naval holiday, said Germany was willing to consider concrete proposals from the British government.

The imperial chancellor opened his speech by pointing out that the strength of the army had not kept pace with the growth of the German nation, and asked: "Can Germany allow itself the luxury of disarming with tens of thousands of trained soldiers?"

Creditors Routinely changed.

He continued: "The conditions of Europe have been radically changed by the Balkan war, which has brought about the passive European Turkey, either state of fearful political activity. In all this there are factors of progress, indeed, but should a great European confederation between Germany and Pan-Slavism come, this change would alter the balance in Germany's favour. This does not alter the fact that I consider this conflict probably will be averted."

The chancellor declared he had made special efforts since assuming office to cultivate good relations with

WHY DAYTON WAS SWIFT AWAY.—This drawing gives an accurate idea of how the location of Dayton between the Ohio and Miami rivers has been a factor in its development. The river runs through the center of the city and is a natural waterway. The high land is a natural barrier to the city and is a natural waterway. The river runs through the center of the city and is a natural waterway. The high land is a natural barrier to the city and is a natural waterway.

Russia and believed the Russian ruler

and the Russian minister reproached.

"That the events of the war," he

added, "have greatly strengthened the

Pan-Slavic current in Russia, and this

is a danger for peace."

"Germany," the chancellor said,

"has been working to mitigate the

Austro-Russian tension, but should war

break out the German Empire would

substantially fight beside her ally."

The chancellor then related

Prince Bismarck's saying: "If the

French wait for us to attack them

they will wait forever," and concluded

that there was every reason to believe

that the French government wished

to live in peace with Germany and

that the French manner showed it too.

"But the working party in France

is coming on the superiority of the

French army on the belief that German

cannon and military instructors

have been tried and found wanting by

Turkey, on the Russian alliance, and

perhaps on British assistance. Ger-

many cannot ignore the aspirations of

such French and Pan-Slavic circles."

FEARS ARE WELL FOUNDED.

Paris, April 7.—Minute descriptions

of the Zeppelin IV, which landed at

Lonsville and was captured by the

French, are already appearing in

French newspapers. This description,

EUROPEAN WAR AVERTED ONLY BY AGREEMENT

Sir Edward Grey Makes Startling
Statement in House of
Commons.

GREAT POWERS WORKED
TOGETHER FOR PEACE

Essential to Peace of Europe That
Montenegro Be Made to
Toe the Scratch.

London, April 7.—There would have been a European conflagration but for the agreement reached by the powers regarding the frontiers of the future state of Albania, according to the opinion expressed by Sir Edward Grey, the British foreign secretary, in the House of Commons this afternoon.

Sir Edward was emphasizing the importance of the international character of the naval demonstration now being made on the Montenegrin coast, and the importance of upholding the European agreement on the subject of Albania, when he made the great statement.

"That agreement is essential to the peace of Europe, and in my opinion it was only accomplished just in time to preserve the peace among the great powers."

How Britain Is a Party.

Sir Edward explained that Great Britain had become a party to the naval demonstration because it was necessary to uphold the agreement reached by the powers regarding the future autonomy of Albania. He continued:

"The war now proceeding has long since ceased to have any bearing on the situation of Europe, and the Italian allies of the war of liberation. The operations being conducted by Montenegrin and Italian are part of a war of conquest, and there is no reason why the same should be extended to the Albanian people."

Many official photos of the Zeppelin which was made while she was in the hands of the French officers. The experts differ as to whether she is really such a terrible engine of war, but it is evident that there will be a long technical controversy on this subject.

To Maintain Peace of Europe.
"That the agreement should be upheld by international action remains essential for the continuance of peace among the great powers. It is because we believe it is in accordance with humanity with liberty and

SLITFANS STILL
WELCOMING FIRE BRAND.

London, April 7.—Military authorities have received a letter from a person who claims to be a fire brand, and who has threatened to destroy a large number of the houses of the city.

Three other buildings, situated in the city, were set on fire during the night, one at Hendon, one at Putney, and one at the other of Hendon. However, the damage was not serious.

Oil cans were found in the vicinity and the fire was extinguished.

With justice, and because we know that the peace of Europe depends on the maintenance of concord among the powers, that we have taken part in the action now proceeding to uphold the agreement and make it respected."

Who May Vote

For the benefit of those persons who may not be familiar with the provisions of the election law relative to the qualifications of voters, it may be stated that persons are qualified to be registered as voters who are male persons of the age of twenty-one years and British subjects.

To be qualified to vote, such persons must have resided in the province one year and in the polling subdivision three months prior to the date on which the registration lists are closed.

Any such person who has resided in the province for one year, but not in his polling precinct three months, has the right to be registered and vote in the poll in which he has resided.

Any such person does not have the right to vote by being absent from his place of residence for temporary purposes.

Any person who leaves his place of residence with the intention of remaining permanently away, loses his residence.

Any person's residence under the act is the place where his family resides, but if he leaves the place where his family resides with the intention of remaining permanently elsewhere, his residence is the place where he is entitled to be registered and vote in the poll in which his new residence is thus established.

The residence of a single man is where he sleeps.

The change of residence can only be effected by a person leaving one place of residence with the intention of remaining permanently in another place.

There can be but one place of residence.

The polls in cities are opened at 8 o'clock in the morning and remain open until 6 o'clock in the evening.

In justice to the voters, the polls open at 8 o'clock in the morning and close at 6 o'clock in the evening.

The voters who may have been absent from the polls on the day of the election, will be able to vote by applying to the proper authorities any time up to the day of the poll.

Expected Highest Level in Its History Will Be Reached.

Memphis, April 6.—With the Mississippi river swelling toward what will probably be the highest stage in its history the only report from the levee workers tonight that might be regarded as unfavorable, came from Hinds, Ark., south of this city, where a "leak" developed today. Officials of the St. Francis levee board, who have supervision over this section of the levee, expressed the opinion, however, that the situation there was not serious.

United States Engineer Hinton, directing the fight along Redfoot levee, below Hickman, Ky., reported to the headquarters late today that the embankment was withstanding the slight well. Similar reports came from Caruthersville, Mo.

The gauge at Memphis tonight showed a stage of 41.5 feet, within one foot of the record last year, when several levees gave way. The time during the day was six-tenths of a foot.

The crest of the flood is not expected for at least 24 days.

FRANK S. WHITESIDE.
Liberal candidate in new constituency of Corcoran-Elliott of Castor Avenue.

open until 6 o'clock in the evening. In justice to the voters, the polls open at 8 o'clock in the morning and close at 6 o'clock in the evening.

The crest of the flood is not expected for at least 24 days.

LIBERAL MASS MEETINGS

Come and hear the real issues of the campaign discussed by the Liberal candidates, Hon. C.W. Cross, Hon. A.G. MacKay and others. They deal with facts and you should have those facts before you cast your vote on April 17. Meetings will be held as follows:

TUESDAY EVENING, APRIL 8—Rose Theatre, Kirkness and Alberta, Hon. C.W. Cross, Mr. W.J. Magrath and others will speak.
TUESDAY EVENING, APRIL 8—Eloquent French speakers will address a meeting in Martel's Hall, North Edmonton.
Scandinavian Smoker, old Grandview Hotel Hall, McDougall St. Hon. A. Tuve and other speakers.

Wednesday, April 9th—German meeting, 843 Namoy Ave. Mr. Don M. Hiebert, Rev. Samuel Schitz, P. M. Schubert and other speakers.

Wednesday Evening, April 9—Smoker given by the Old Countrymen in Revillon Hall, Second St., south of Jasper Avenue.

Thursday Evening, April 10—Meeting in Royal Hall, Kinistino Avenue.

Thursday Evening, April 10—Meeting in Riverdale School, Fraser Flats.

Friday Evening, April 11—Big Labor rally in Oddfellows Hall, Norwood. Don't miss this one.

Friday Evening, April 11—Several noted German speakers will address the German-Canadians at the German Club, 216 Morris Street.

Friday Evening, April 11—Mass meeting in moving picture theatre, Calder, (West Edmonton.)

Saturday Evening, April 12—Monster Labor demonstration, Revillon Hall, Second Street, south of Jasper Ave. Every laboring man in the city should attend this meeting and find out the difference between promises made and promises fulfilled. Come and find out what the Liberal government has done for the wage earners.

Monday Evening, April 14—Meeting in Royal Hall, Kinistino Avenue.

Monday Evening, April 14—Meeting in Riverdale school, Fraser Flats.

Tuesday Evening, April 15—Labor meeting, Rose theatre, Kirkness St. and Alberta Avenue. All workmen cordially invited.

Tuesday Evening, April 15—Meeting in G.T.P. Cafe, Elm Park. Wage earners and others specially invited.

You will have facts, not fiction, presented to you at these meetings. Do not come in anticipation of hearing abuse and vituperation. The Liberals have something more substantial to offer you.

GOD SAVE THE KING

Wilson Keeps Promise To American Nation to Revise Tariff Downward

Sixty-Third Session of Congress is
Opened at Washington
Today.

HIGH COST OF LIVING MUST BE REDUCED

The Present Apparent Loss in Rev-
enue Will be Offset by In-
come Tax.

Washington, April 7.—The sixty-third congress, the first in many years with the followers of the Thomas Jefferson in a majority, began business at noon.

Just as Speaker Clark was dropping his gavel in the house majority leader Underwood dropped the tariff revision bill into the hopper and there officially started a business that promises to keep congress at work through the Washington "dog days" next fall.

While the legislators were finding their new agenda a procession of women in attractive, representing every congressional district in the United States, invaded the Capitol and presented petitions demanding a constitutional amendment for equal suffrage.

In the house the day's proceedings were principally devoted to the re-election of Speaker Clark was the first business after about a hundred members had been sworn in. Most new members, however, had been sworn in on inauguration day.

Young Men Create Sons.
The strict formality that has characterized the opening of congress was shattered when a young man in the gallery of the senate tripped over a row of the only to the floor.

The galleries were full of women and the first time it was thought the demonstration was part of the suffrage and women's rights. The man who gave his name as George H. Clemens, of Missouri, North Carolina, said he was "friend of the Prince of Peace."

Vice-President Marshall called the senate to order and administered the oath to senators-elect Sherman, of Illinois, and Van Dine, of Virginia.

Washington, April 7.—Revision of all tariff from basic articles of commerce, and a new income tax that will meet the needs of the nation, are the chief features of the new legislative program.

Underwood today to the house of representatives, and in the senate, said he was "friend of the Prince of Peace."

Underwood today to the house of representatives, and in the senate, said he was "friend of the Prince of Peace."

CONGRESS AMAZED AT WILSON'S PLAN

Washington, April 7.—President Wilson's determination to read his own measures to congress has completely disconcerted the tariff and the income tax as subjects of chief popular interest. No president since John Adams has availed himself of the right. Congress was amazed when it heard of the president's plan. Some of the old-time leaders refused to believe it would be necessary. Rumors personally confirmed the news.

per cent. in an effort to reduce the cost of food.

Protection to the steel and implement manufacturer would, in turn, be made to fully as wide a margin.

Heavier reductions fall upon food, agricultural products, woolen and cotton goods.

The free wool proposal, backed by the president and accepted by the house committee, is expected to provide a severe blow with the Democratic ranks of both houses.

Other Changes in Rates.
Important changes in rates but including the following:

Barley meal, from 15 cents to 25 cents a bushel.

Buckwheat, from 15 to 18 cents a bushel.

Coke, from 15 cents to 18 cents a bushel.

Fine, cleaned, from 2 cents to 1 cent a sack.

Wheat, from 25 cents to 10 cents a bushel.

Butter, from 6 cents to 2 cents a pound.

Cheese, from 6 cents pound to 20 per cent ad valorem.

Beans, from 45 cents to 25 cents a bushel.

Eggs, from 5 cents to 2 cents a dozen.

Natural Cuts and Seedlings.
Nuts, from 25 cents to 15 cents per bushel.

Apples, from 15 to 25 cents per bushel.

The Income Tax.
The income tax, which will transfer indirect taxes levied through the tariff into a direct tax upon the income of individuals and corporations, is expected to be passed.

The bill also includes in its provisions the property and earnings in this country of persons living abroad.

The present corporate tax, levied one per cent on corporations, is expected to be retained.

Street Railway Department Now Should Show Surplus

Rates Charged for Power Reduced—Edmonton and Calgary Systems Compared—When Placed on the Same Footing Edmonton System Shows up Better Than Calgary.

From present indications, it is probable that the Edmonton Street Railway Department will show a surplus for the first time in its history.

At present the department is operating at a loss, but the reduction in the rates charged for power will result in a surplus.

While the electric light department is expected to show a surplus, the street railway department is expected to show a deficit.

Line-up of Edmonton Baseball Team Almost Complete

Edmonton Team Signs Class A Catcher and Shortstop Reddick

Gaps in Line-up are Rapidly Being Filled - Pitcher Ford Signs Contract - Infielder Rechon Will Get Trial - News From Manager Whisman.

The line-up of the Edmonton baseball team for the coming season is assuming definite shape every day, as by the team reports to Manager Whisman for spring training, next week, the make-up for the team should be practically decided.

Perhaps the best bit of baseball news which reached our readers was an announcement made by Secretary George Johnson of the local club. He has just announced that he has practically signed up a catcher with class A experience. He is also a good first baseman and will probably be used at first position in this is the biggest gap in the team to date.

The newcomer's name is Reddick, and it is reported to be a good one. With several years' experience in "Class A" baseball, he should more than make good in the W.C.L. Mr. Rechon has been working with the team for several weeks past, but was not able to do anything to show that he had his man's worth. A letter from Rechon made the announcement possible.

Rechon's name is near Chicago, but during the past two weeks he has been in with the team, in the Western League. During 1911 he was practically regular with the team and was named in the Western League. He played well with the other catches and was named in the Western League. He played well with the other catches and was named in the Western League.

With the signing of Reddick the hole has been filled, at least, as far as the catching position is concerned. It is expected that Rechon will be used at first base.

News was received yesterday from Manager Whisman, who is still at the club, that he has been successful in obtaining Lou Reddick, who played shortstop for the Boston Braves last summer. Reddick, who is reported to be a good first baseman and will probably be used at first position in this is the biggest gap in the team to date.

He should be along early next week. Reddick is now at Kansas City. Reddick attended his signature in an Edmonton contract yesterday afternoon and will be ready to go to the spring training camp in the near future. It is reported that he is a very good first baseman and will probably be used at first position in this is the biggest gap in the team to date.

After many months of silence, word has at last reached the city of the whereabouts and intentions of our "Old" Reddick. It is reported that he will travel to Edmonton about April 20th, and will be ready to go to the spring training camp in the near future. It is reported that he is a very good first baseman and will probably be used at first position in this is the biggest gap in the team to date.

At present there are only four serious men in the Edmonton line-up. They are: Pitcher Ford, who is a very good first baseman and will probably be used at first position in this is the biggest gap in the team to date. Infielder Rechon, who is a very good first baseman and will probably be used at first position in this is the biggest gap in the team to date.

With the signing of Reddick the hole has been filled, at least, as far as the catching position is concerned. It is expected that Rechon will be used at first base. The team is now in a position to start training in the near future.

Manager Whisman and his staff are now in a position to start training in the near future. The team is now in a position to start training in the near future. The team is now in a position to start training in the near future.

The long and short of it is here ball-photograph of Marmville (on left), of the Edmonton Nationals, and pitcher Jones, who are the shortest and tallest members of the Edmonton Nationals, now training at Ainslie, Ga.

REGINA HORSES TO BE TRAINED AT EDMONTON

Anderson and Lupton String Shipped Here, Owing to Poor Weather and Track.

Regina, April 7.—(By the western and track conditions, of Regina not being suitable for the early training of horses, the stable string of five horses owned by Anderson and Lupton have been shipped to Edmonton, where they will be in condition for the opening race of the Western Canada circuit, which takes place at Edmonton on May 1st.)

Horse owners, however, especially the track in this city very soon in getting into the spring of the year, and as it is absolutely necessary that the horses be in condition for the first meet, Edmonton has been chosen by these owners as a place to train.

The horses are in charge of "Red" Houston, the well known and most capable trainer, now employed by Anderson and Lupton. Their training facilities were in the shipment of Love Wilson, Sam Houston, and a girl named "Molly."

BARREAU MATCHED FOR BOAT WITH MOORE

Vancouver, April 7.—(Fighting Tom Moore, the famous Canadian, has been matched for a fight with "Red" Houston, the well known and most capable trainer, now employed by Anderson and Lupton. Their training facilities were in the shipment of Love Wilson, Sam Houston, and a girl named "Molly."

There is a fight to be a general sound for the first time in the history of the city. The fight will take place at the "Edmonton" club, which is a very good first baseman and will probably be used at first position in this is the biggest gap in the team to date.

N.Y. YANKEES WON A VERY COSTLY GAME

Reversed Table on Brooklyn, But Chase and Derick Were Hurt.

Brooklyn, April 7.—The New York Yankees, by a score of 8 to 4, turned the tables on the Brooklyn Nationals (think here today in the second of two exhibition games, it was a costly victory, as Chase and Derick were hurt. Chase twisted his ankle turning first base, after a base hit in the second inning, and was forced to retire. Derick was injured on the hand by Wheat when the latter slid into second in the fifth, and was badly hurt. Neither man may be able to start the championship season Thursday. Derick took Chase's place. Young, who replaced Derick, sent the crowd wild with brilliant speed and three runs.

New York won by bunching hits of Lugo and Thome after a hit by Wagner and sent men to first on base. Warshaw started the pitching for the Yankees, but after getting through for three balls and two strikes retired because of a sore arm. Fisher pitched a fine game, considering the cold weather.
